EXPERIENCE

General Assembly, remote — *Fellow*

September 2020 - PRESENT

During this 12-week, 500+ hour career accelerator, I produced several full-stack projects, worked individually and on a team. Covered front- and back-end programming fundamentals and trained in a variety of modern programming languages and technologies.

Jackalope Brewing Company, Nashville, TN — *Brewer*

August 2014 - March 2020

- Create from grain to glass all Jackalope's core brand portfolio (about 10 beers) on a state of the art 30 bbl system from Sprinkman
- System troubleshooting (Brewhouse, fermentors, bright tanks, packaging line, chiller, mill)
- Responsible for overseeing the operation of the brewhouse

PROJECTS

Project Name — *Capstone*

- An app that allows users to ask questions and receive answers.
- Full user authentication, CRUD, and API requests.
- Tech used: JavaScript, React, Python, Django

Posted — *Group Project*

- A full stack team project built using Express.js, Node.js, Mongoose, MongoDB, JavaScript,
- This app utilizes Amazon Web Services to host files and integrates the S3 Uploads module in the back end.
